43th Coarse Angling World Championship for Clubs on 22-28 July Brežice, Slovenia 2024

Welcome to the municipality of Brežice and welcome to the Posavje region!

Dear fishermen, participants, visitors, and organizers of the Championship,

We are pleased that you chose our municipality of Brežice and the Posavje region as the location of the competition. The municipality of Brežice is characterized by waters, vineyards and castles. We are proud of the green world at the confluence of the Sava and Krka rivers, our thermal springs, excellent local wines and authentic local delicacies, rich architectural and natural heritage and numerous opportunities for hiking and cycling and at the same time lively

summer events in the Brežice city where different worlds meet. Since 2022, we have been proud holders of the title Slovenia Green Destination Platinum – a sign of the highest excellence in achieving sustainable international standards. The municipality of Brežice is also a sports municipality, as evidenced by numerous sports associations and excellent results of athletes, and the recipient of the title European City of Sport 2022. I invite you to visit the Water Tower in the city in your free time, which is a unique monument of technical culture and at the same time an amazing viewpoint. In the Brežice Castle, home to the Posavje Museum, see the exceptional Knights' Hall; in Bizeljsko, there are interesting special turnip caves named »repnica«, where winemakers store wines; you can drive over one of our three bridges – the iron bridge, that connects the banks of the Sava and Krka rivers, or wooden bridges over Krka in Cerklje ob Krki and Boršt.

I wish you a successful competition and a pleasant stay in our municipality.

Ivan Molan

Mayor of Brežice

Fishing Club Brežice

We are a fishing club with more than 350 members and a fishing area of 524.97 hectares. Our club is famous for its rich experience in organizing fishing competitions. Our largest competitive route is located on the left bank of the Sava River next to the Brežice Hydro Power Plant reservoir and consists of 128 landings.

MUNICIPALITY OF BREŽICE – THE PLACE WHERE CULTURE AND NATURE GO HAND IN HAND

Rounded hills, the outskirts of Gorjanci, the green world at the confluence of the Sava and Krka rivers, vineyards, waters and castles – the municipality of Brežice is the place where different worlds meet. The richness of natural and cultural heritage ennobles the development of tourism and service activities.

The Municipality of Brežice extends over 268 km² and lies along the Krka and Sava rivers. It is one of the larger municipalities, with 24,473 inhabitants, living in 109 settlements or 20 local communities. It has a very important geostrategic location. This is where the main road and rail link take place. The border accounts for one-tenth of all borders with the neighboring country of Croatia.

TOURISM AND SERVICE ACTIVITIES

The Municipality of Brežice has an excellent geostrategic position as well as natural resources, which is a prerequisite for the development of tourism. Brežice is a centuries-old meeting point of central and southern European routes. The proximity of the Croatian capital and good transport links with Croatia make Slovenia the gateway to the Balkans. Good cross-border cooperation is the result of years of effort, mutual respect and good neighborliness. Bordering municipalities come together in tourism projects, one of which is the “Welcome our Neighbour” event.

The planning of the bypass, the expansion of the civil airport, the Brežice Hydro Power Plant and the planned construction of the Mokrice Hydro Power Plant, the arrangement of the Brezina industrial zone, the Dobova and TC Slovenska vas craft zones as well as the planned logistics center of the “Feniks” project offer Brežice new development opportunities.

HOW TO GET TO THE PLACE OF THE COMPETITION

You can get to the competition route by car.

The city of Brežice lies in the southeast of Slovenia at the confluence of the Sava and Krka rivers. The traffic is well connected and you can reach us quickly and easily in different ways.

ACCESS BY CAR

The city of Brežice is easily accessible, as it lies along the A2 motorway, which runs in a northwest-southeast direction from the border with Austria in the Karavanke tunnel to the border with Croatia in Obrežje. The road infrastructure is well-developed, and suitable for different types of vehicles, usually without major traffic jams. Other support activities (gas stations ...) are frequent and easily accessible. Even if you have an electric car, several electric car charging stations are available.

43th Coarse Angling World Championship for Clubs on 22-28 July Brežice, Slovenia 2024

ACCESS BY PLANE

By plane, you can reach Brnik (Jože Pučnik Airport) or the Zagreb Airport. From there you can use other means of transport to get to our destination. If you are coming from the Zagreb Airport, you must cross the border and need a valid ID.

43th Coarse Angling World Championship for Clubs on 22-28 July Brežice, Slovenia 2024

THE COMPETITION ROUTE OF RD BREŽICE DATA

The accumulation of Brežice Hydro Power Plant (HPP) was created due to the newly built Brežice HPP and is located on the site of the former gravel plants Vrbina. Carp weighing 37.5 kg was caught in the reservoir. He was captured and released in April 2020.

The district stretches from 1000 m below the Krško Nuclear Power Plant (border with Brestanica) to 400 m above Brežice HPP. Inside the Sava 20 district, there is a competition route (a section on the left bank of the reservoir between the two concrete piers), where only catch and drop fishing is allowed.

The water depth at 13 meters is 5-5.5 meters or 5 partial top digit rods. At a length of 25-40 meters, the water depth varies between 7 and 8 meters, depending on the water level.

THE LENGTH OF THE RODS, THE AMOUNT OF GROUNDBAIT AND BAIT

Pole length: 13 m

Net length: min 3.5 m

Groundbait quantity: 20 liters (wet and sieved).

This amount includes soil, gravel, corn, wheat, hemp seeds and other additives that are not toxic to fauna and aquatic environment.

The amount of live baits: 2.50 liters, of which 0.50 liters are joker, in the total amount of bait 0.50 liters of earthworms is allowed. Earthworms are presented whole (non-cut). Baits must be presented in official measuring containers. Bloodworm is dedicated to hook only and must be presented in the "official FIPSeD measuring box."

43th Coarse Angling World Championship for Clubs on 22-28 July Brežice, Slovenia 2024

Fishes: skimmer, grass carp, asp, roach, chub, crucian carp, carp (cultivated form), tench, barbel, perch, wimba, danube roach, bream, nase, zander, catfish, pike, bleak.

43th Coarse Angling World Championship for Clubs on 22-28 July Brežice, Slovenia 2024

ANTI-DOPING INFORMATION

The athletes participating in the Championship, with the registration, implicitly accept all WADA anti-doping rules. Athlete whose illness or condition requires treatment with a prohibited substance or method must apply to CIPS for a Therapeutic Use Exemption (TUE) following the CIPS strict TUE application process.

He/she shall then use the application form, which can be downloaded from the ITA website: <https://ita.sport/resource/international-testing-agency-therapeutic-use-exemption-tue-application-form/>

The TUE request has to be sent to the following address: tue@ita.sport

Athletes must therefore consult the Prohibited List

<https://www.wada-ama.org/en/resources/world-anti-doping-code-and-international-standards/prohibited-list>

If the TUE is granted, the athlete will then be permitted to use the medication during the period of validity of the TUE without committing an Anti-Doping Rules Violation (ADRV).

Regardless of whether a TUE has been granted or not, athletes should always declare on the doping control forms filled out during sample collection any medications and supplements taken within the seven days prior to sample collection, and any blood transfusions in the three months prior for blood samples.

If a TUE has already been granted by a NADO or by a RADO, the Athlete in question does not have to apply for any additional CIPS TUE, as CIPS recognizes all TUE granted by NADOs and RADOs.

Rules

FIPSeD Rules are available and can be downloaded by https://www.fips-ed.com/reg_fipsed_nation_2024_en_def/
